Djaouad Frih

Full Stack Developer & AI Engineer

PROFILE

Engineering graduate from ESI SBA with hands-on experience building production-grade web applications, native mobile apps, and AI-powered products. Specialized in Next.js, NestJS, and LLM integration with RAG pipelines. Proven ability to ship end-to-end products — from database design to deployment — serving real users. Passionate about building tools that make AI feel human.

EXPERIENCE

- IT Intern 2024
Algérie Télécom — Sidi Bel-Abbès
 - Contributed to internal web application development and maintenance
 - Worked with enterprise-grade systems and production databases
 - Gained hands-on experience in agile team environments

PROJECTS

AI Virtual Receptionist Next.js · NestJS · pgvector · React Native · Socket.io · Gemini
24/7 AI receptionist that books appointments, captures leads, routes conversations to departments, and hands off to humans with AI-drafted replies. Real-time streaming chat, RAG knowledge base, native Android app, and embeddable widget. Deployed to production.
chat.djaouad.tech GitHub

Smart PDF Workspace Next.js · NestJS · pgvector · Gemini · WebSocket
Document intelligence platform: upload PDFs, auto-extract text, chunk and embed into pgvector, then ask natural-language questions grounded in your documents. Team management, publishable embeddable widget, and real-time analytics dashboard.
docs.djaouad.tech GitHub

Developer Portfolio Next.js · Tailwind CSS · Framer Motion · Netlify
High-conversion portfolio with Calendly integration, social proof metrics, urgency-driven CTAs, and a live AI chatbot demo embedded directly on the page.

EDUCATION

- Engineering Degree in Computer Science 2023 — 2026
École Supérieure en Informatique (ESI SBA)
State engineering diploma with specialization in software development and AI.
- Master's Degree in Computer Science 2026
École Supérieure en Informatique (ESI SBA)
Advanced coursework in AI, software engineering, and distributed systems.
